My project consists of following pages which include respective functionalities:

## 1. LOGIN PAGE

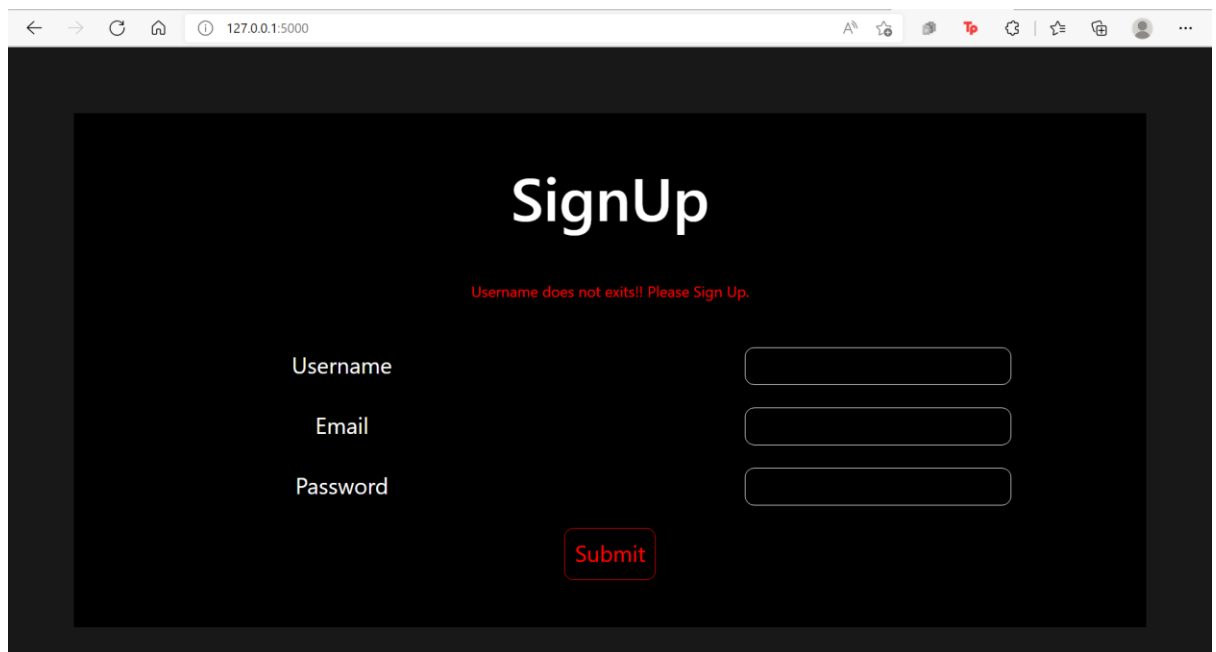

The screenshot shows a web browser window with a dark-themed login page. The browser's address bar displays the URL '127.0.0.1:5000'. The login page features the word 'Login' in a large, white, sans-serif font. Below the title, there are two input fields: the first is labeled 'Username' and the second is labeled 'Password'. Both fields are empty and have a light gray border. Below the password field is a red button with the word 'Submit' in white text.

This page consists of 2 fields – Username and Password. The user will have to enter the details and click on login

button. In case the password matches, the user will be redirected to dashboard and if the password doesn't matches, then the user will be informed to enter the correct password.

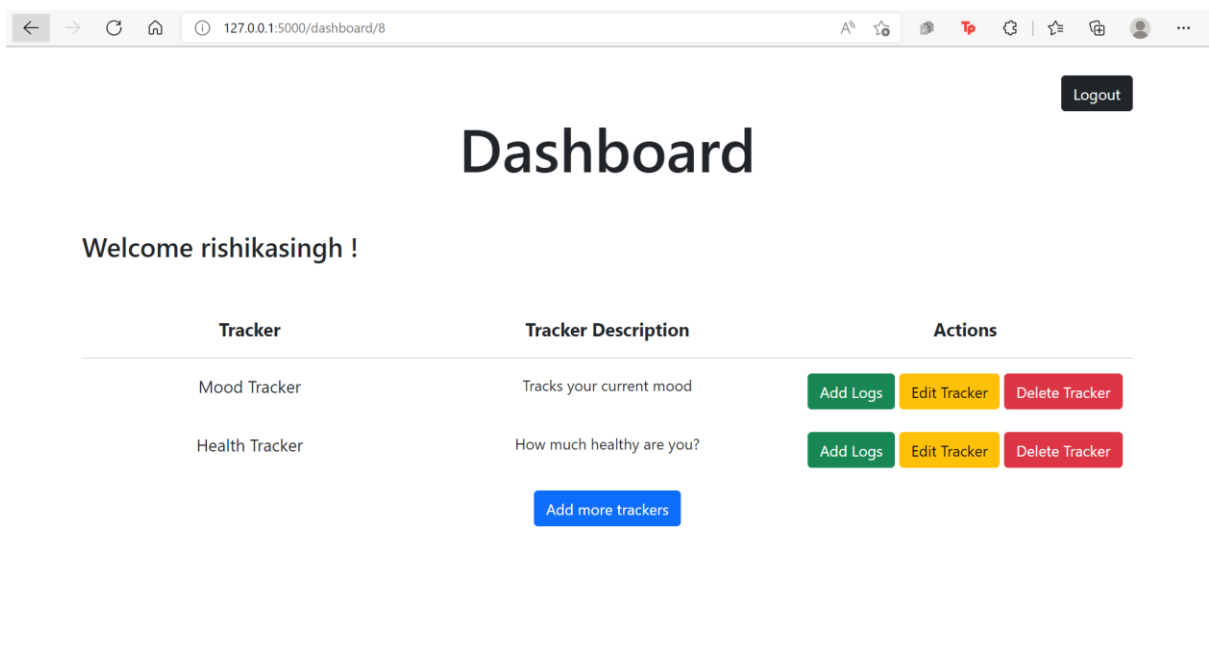

## 2. SIGNUP PAGE

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:5000'. The main content area has a dark background. At the top, the word 'SignUp' is written in a large, white, sans-serif font. Below it, a red error message reads 'Username does not exists!! Please Sign Up.' In the center, there are three white input fields stacked vertically, labeled 'Username', 'Email', and 'Password' on the left. To the right of the 'Password' field is a red button with the word 'Submit' in white text.

If while logging in, the username is not registered, then the user will be redirected to signup page. Here user will be asked to enter the details and signup. After clicking on the signup button, the user will be redirected to login page.

### 3. DASHBOARD

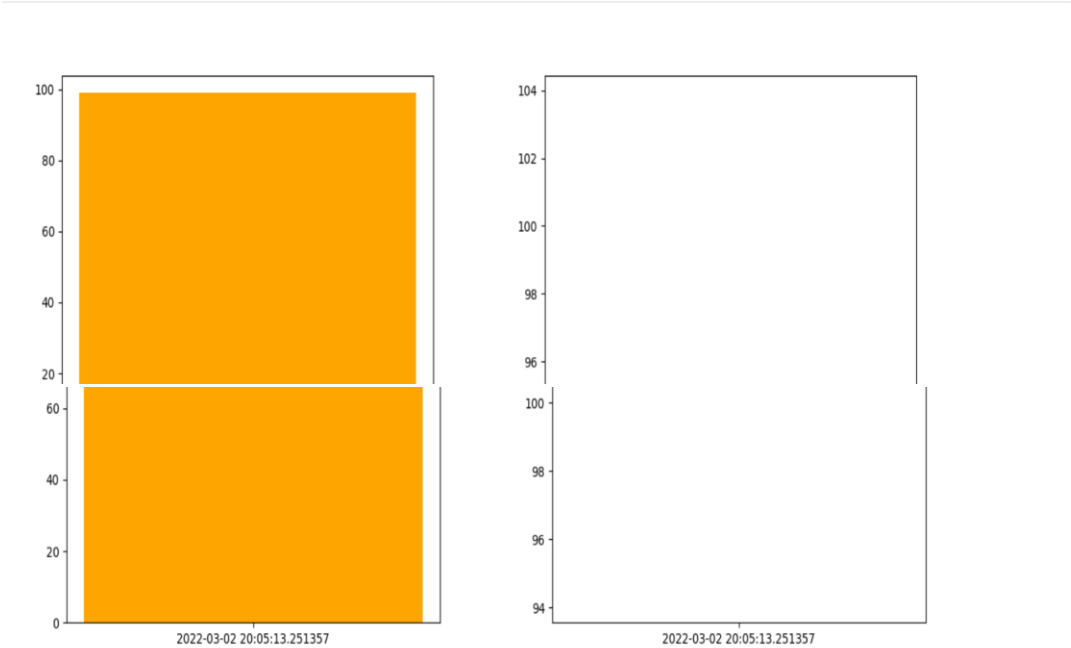

Here the list of trackers are displayed which are added and logged by the user. CRUD operation on tracker are provided.

On clicking the name of tracker, the user can see the tracker details with logs and bar chart.

Logout

# Tracker Details

## Mood Tracker

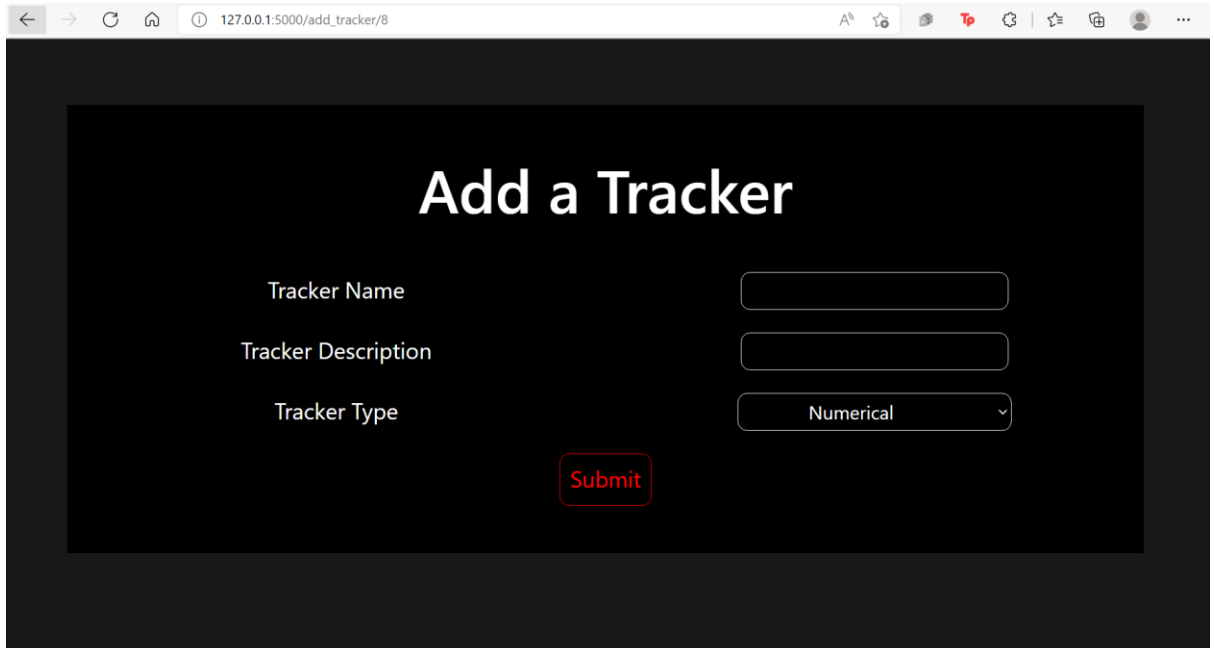

## LOGS

ON	Values	Note	Actions
2022-03-02 20:05:13.251357	99	okayish	<div>Edit LogDelete Log</div>

Add Logs

User can add more trackers by clicking on add tracker button which redirects the user to a form which demands the details for tracker and the form redirects back to the dashboard.

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:5000/add\_tracker/8'. The main content area has a dark background with a white title 'Add a Tracker'. Below the title, there are three input fields: 'Tracker Name', 'Tracker Description', and 'Tracker Type'. The 'Tracker Type' field is a dropdown menu currently showing 'Numerical'. A red 'Submit' button is located below the input fields.

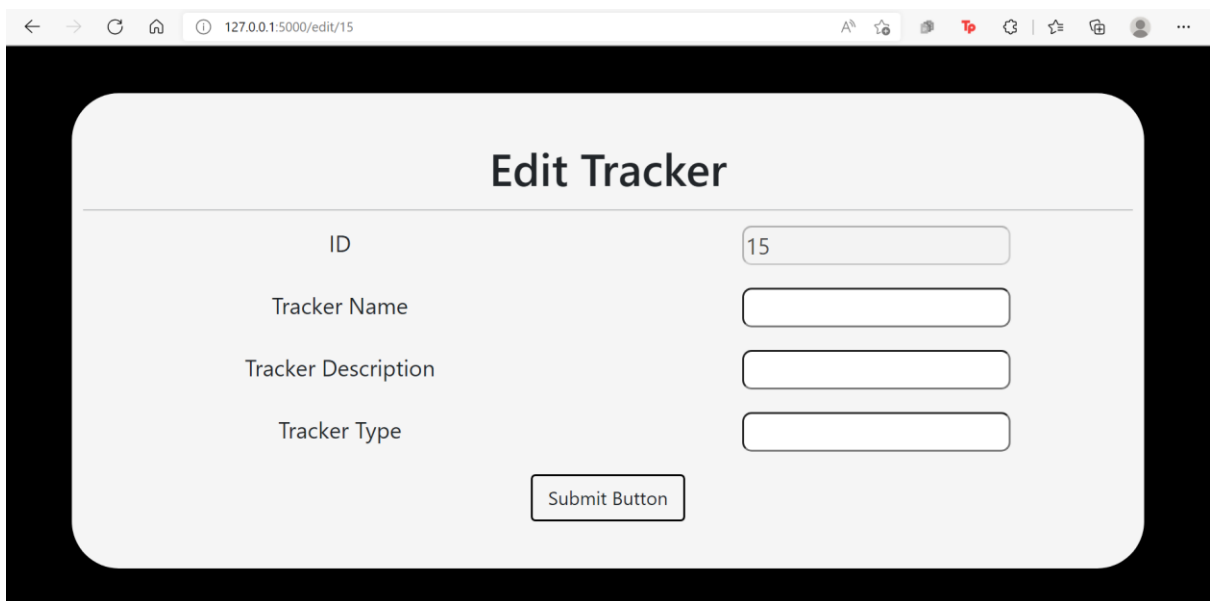

## Add a Tracker

Tracker Name

Tracker Description

Tracker Type

User can also edit the tracker

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:5000/edit/15'. The main content area has a dark background with a white title 'Edit Tracker'. Below the title, there are four input fields: 'ID' (containing '15'), 'Tracker Name', 'Tracker Description', and 'Tracker Type'. A 'Submit Button' is located below the input fields.

## Edit Tracker

ID

Tracker Name

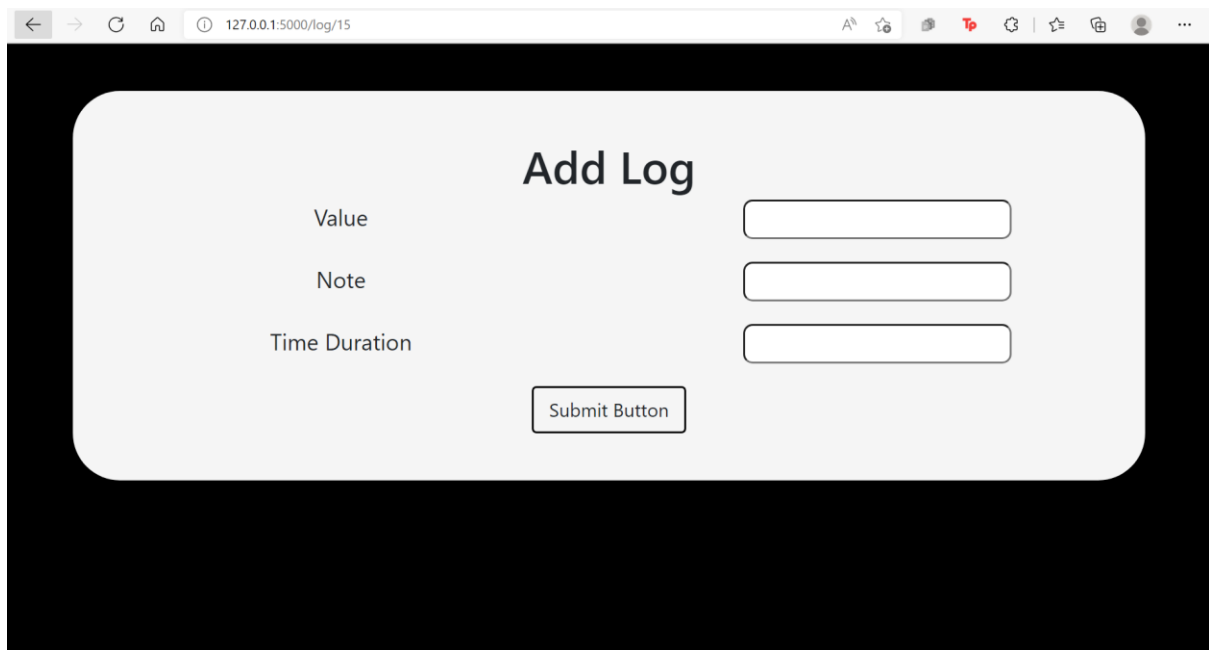

Tracker Description

Tracker Type

User can also delete the tracker by clicking on delete tracker details.

#### 4. Logging the tracker

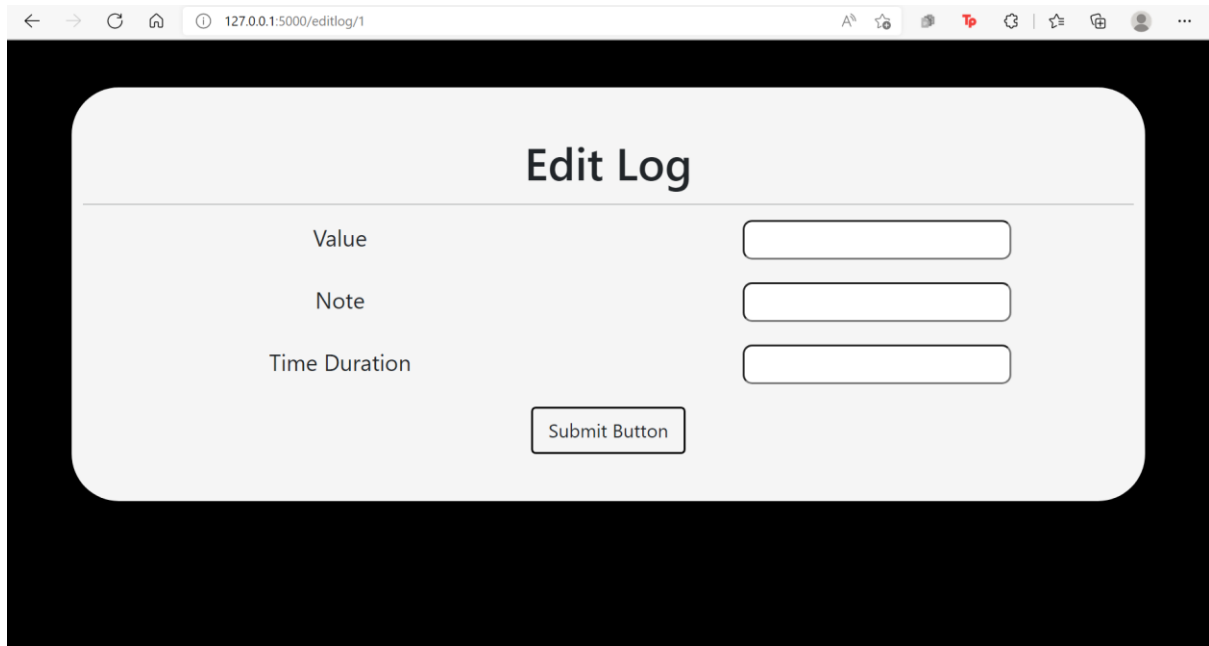

User can add logs to the tracker by add logs button.

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:5000/log/15'. The main content area features a light gray rounded rectangle on a black background. Inside this rectangle, the title 'Add Log' is centered at the top. Below the title, there are three input fields arranged vertically. To the left of these fields are the labels 'Value', 'Note', and 'Time Duration' respectively. Below the input fields is a button labeled 'Submit Button'.

There is another way of adding logs. Click on the tracker name. The page will show the tracker details and there is a button "Add Logs". By clicking on this button, user can add logs according to the tracker.

User can delete the logs and update the logs too.

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:5000/editlog/1". The main content area features a light gray rounded rectangle titled "Edit Log". Inside this rectangle, there are three input fields on the right side, each corresponding to a label on the left: "Value", "Note", and "Time Duration". Below these fields is a "Submit Button".

On the tracker details page, the user can see the timestamp at which the tracker was logged.

## 5. LOGOUT

There is a logout button on every page. On clicking on this, the user will be logged out and redirected to the login page.
